

# SATTLEER

BURGENLAND  
AUSTRIA

Sattler's 2007 St. Laurent is plummy, round and very smooth. The Sattler Vineyards are located 50 miles southeast of Vienna near Lake Neusiedl. Exposed to an average 300 days of sunshine a year, it is by far the sunniest and warmest region in Austria. The fruit is hand-harvested and hand-selected before being de-stemmed and pressed. This richly colored, deeply flavorful red wine complements a variety of different foods without overwhelming the palate.
